

Biography

Dr Ben Salah Nahla: I am university teacher since 2007. I got my master's degree in mathematics in 2008 and I obtained my doctorate in 2012 .

Actually, I am a doctor (PhD) in mathematics occupying the position of senior lecturer (university teacher) at the Higher Institute of Science and Environmental Technologies Borj Cedria-Tunisia. So I'm a researcher at the Faculty of Sciences of Sfax-Tunisia. I have a professional experience over 9 years in the field of higher education and research. Currently I am a coordinator of the Mathematics Department and teacher of students of masters. The topics relate mathematics (probability, statistics, numerical analysis). Thus, I have conducted research that studies the convolution of infinitely divisible distribution and not infinitely divisible.

I have written 04 articles in international journals and more than 10 papers at international seminars. I am a member reviewer in journals and I am a member of the organization of the seminar researcher at the Higher Institute of Science and Environmental Technologies Borj Cedria-Tunisia.
