

Dr. Mrs. Kaiser Jamil, a renowned Biotechnologist had the opportunity to work in the country's foremost CSIR labs like CSIR-IICT and CSIR-CCMB, which gave her an exposure to professional scientific environment. Also had the privilege to interact with some distinguished national and international scientists and Nobel Laureates. The numerous lectures attended, plenary and invited lectures presented at National & International conferences in different countries, have helped her to develop scientific aptitude and skills in both Scientific and Administrative job. And with an interest in gender issues she has served the OWSD since its inception in 1986, as a member and in the capacity of Vice President and President. With interest to serve Women and Girls she has been a pioneer in organizing workshops and conferences- giving women a platform that they deserve to discuss gender discrimination and enlighten women scientists and teachers and other professionals. As she feels women are more close to nature and environment and can serve better on issues related to environment.

*Her professional activities includes continued Research at Mahavir Hospital and Research Centre.
