## PROFILE:

I am an Architect seeking a position where I can both learn and display my complete potentiality and prove to be a part of a very professional organization like your institution.

I have 5 years academic experience as a student Architect and working alongside with qualified Architects / teachers. I have worked for them on a variety of different projects both in academic and professional level.

I have extensive exposure in communication and able to work with my own initiatives or as part of any passionate team and always willing to learn new skills. That's why, I am very much interested to maintain quality in professional practice, to evaluate my achievements by myself & share this knowledge with the experts.

## EDUCATION:
