

## Biography

Anis Elaoud : I am a doctor engineer occupying the position of Expert with the Arab Organization for Agricultural Development and senior lecturer (university teacher) at the School of Engineering Rural Equipment Medjez Elbeb-Tunisia. So I'm a researcher at the Water Research and Technologies Center-Borj Cedria-Tunisia. I have a professional experience over 10 years in the field of higher education and research. The topics relate mechanical engineering (fluid mechanics, soil mechanics, agricultural machinery). Thus, I have conducted research that studies the relationship of machines and mechanical effects on agriculture.

Actually I lead two lines of research: - Effects of magnetic equipment on the water and agricultural crops.

-Compaction Soil by machinery (soil mechanics).

I have written more than 15 articles in international journals and more than 25 papers at international seminars. I am a member reviewer in journals and I am a member of the organization of the seminar researcher at the Water Research and Technologies Center-Borj Cedria-Tunisia.
