

Dr. D.Nagasamy Venkatesh is serving as an Assistant Professor at Department of Pharmaceutics, JSS College of Pharmacy, Udhagamandalam. India. Dr. D.Nagasamy Venkatesh is interested in developing certain nanobased drug delivery systems for antiviral and anticancer drugs. His research is also involved in developing sustained/controlled drug delivery systems for certain drugs and analytical and bio-analytical method development for drugs. He serves as a reviewer of more than 25 peer reviewed journals including AAPS, Carbohydrate polymer, Indian Journal of Pharmaceutical Sciences. He serves editorial board member for more than 20 international journals. Dr. D.Nagasamy Venkatesh has authored more than 50 peer-reviewed publications. He has received two awards for his presentations/publications in a national level seminar.

Research Interest

Nano based drug delivery systems for antiviral and anticancer drugs, developing sustained/controlled drug delivery systems for certain drugs, dissolution enhancement of certain drugs by solid dispersion techniques analytical and bio-analytical method development for drugs.
