

Biographical note

Forough Mortazavi

Forough Mortazavi is an Assistant Professor of Reproductive Health and Head of the Midwifery Department in school of Nursing and Midwifery at the Sabzevar University of Medical Sciences where she has been a faculty member since 1998. She received both her Bachelor of Sciences and Master of Sciences in Midwifery from Mashad University of Medical Sciences. She graduated with her doctorate's degree in Reproductive Health from Shahroud University of Medical Sciences. She is the instructor of many undergraduate topics. She has passed several workshops and attended congresses. Her recent two publications include Psychometric Properties of the Procrastination Assessment Scale-Student (PASS) in a Student Sample of Sabzevar University of Medical Sciences; Breastfeeding Practices During the First Month Postpartum and Associated Factors: Impact on Breastfeeding Survival. Her research interests center on the area of quality of life, well-being, and breastfeeding with a focus on instrument validation. She is currently completing a study on correlates of childbirth fear in ante-and postpartum periods.
