

## **Julia Robles**

I am a graduate student at the University of Arizona working towards my MLS. I hold a bachelor's degree in political science from Cal State San Bernardino. My work experience includes two years working for the U.S. House of Representatives first as a staff assistant, and later as a Constituent Services Representative. I have spent the last two years as a Policy Advisor for the San Bernardino County Board of Supervisors. While at CSUSB I worked as a Supplemental Instructor teaching American Government to freshman students, and here at UA I am employed as a Course Assistant. In my free time I work with local high schools to teach classical music to students.
