

Summary
Prof. Dr.-Ing. Roland Jochem

Head of Chair Quality Science, Institute of Machine Tools and Factory Management (IWF), Technical University Berlin, Germany.

From 1987-1989 he worked as a project engineer in a medium-sized engineering company. Then he worked on research projects at the IWF, TU Berlin, and applied research projects at Fraunhofer-Institute for Production Systems and Design Technology (IPK). In the period 2002-2005 Prof. Jochem performed optimization projects in the area of product creation processes at Bosch Siemens Hausgeräte GmbH. From 2005-2010 he holds the chair on Quality Management at University of Kassel, Germany. Since 2009 he is Extraordinary Professor for Quality Management at Stellenbosch University, South Africa.

Since 2011 he is Division Director Quality Management of Fraunhofer-Institute for Production Systems and Design Technology (IPK).

He is also acting president of the German Association of Quality Science.

His research focuses are model-based process-oriented quality, standardized quality processes, quality management, quality excellence, organizational design of quality departments, innovation and requirements management.

Prof. Jochem is author of 11 books; Author of more than 90 Articles published in Journals, Conference Proceedings or Edited Books.
