

My name is Ekaterina from the family of Tolmachev.

I was born on the island of Sakhalin, where she lived until 2024. Now I live in Moscow region. I have a degree in law and economics.

In 2022, I completed postgraduate studies at Russian Academy of National Economy and Public Service under the President of the Russian Federation (Moscow).

In the postgraduate program, a scientific report on the topic of the scientific research «Out-of-court and judicial settlement of disputes arising from family relationships» was presented and protected (can be found here: <https://yurbus.su/razreshenie-semejnyh-sporov>).

Since 2010 has provided legal assistance to trustees in restoring their rights, freedoms and interests. From 2014 to 30 July 2025 had the status of at attorney in the jurisdiction of the Russian Federation.

Representing human interests in the courts, problems of legal regulation of relations in different spheres of life, which are systemic. Scientific research made it possible to analyze, synthesize and draw conclusions. The results of practice and research are presented in the form of articles, presentations at scientific and practical conferences, where problems of law enforcement are discussed and optimal solutions are sought.

As a man born on the island of Sakhalin and experiencing a state of uncertainty about the lands of the Kuril Islands and, as studies have shown, the Sakhalin Island, an unresolved territorial dispute with Japan is of particular importance.

Therefore, in 2024 it was decided to scientifically investigate the use of peaceful means of settling international territorial disputes, considered from a historical and legal point of view.

In May 2025 is attached to [Herzen State Pedagogical University of Russia](#) (St. Petersburg) for the preparation of a dissertation on the theme «Peaceful means of settlement of territorial disputes: historical and legal aspect».
