---

The papers contained in the series Architecture Anthology II are selected from those presented at the 2014 Conference in Architecture organized by the Athens Institute for Education and Research (ATINER) held in Athens from July 7 to 10, 2014. The selected papers have been divided into categories and published in three separate volumes with the numbering continuing from the Architecture Anthology I series: Volume 6 - Architectural Theory and History; Volume 7 - Architects, Design, and Education; and Volume 8 - Architectural Technology. The series will be continued to be published to include papers presented at future ATINER Architecture Conferences. The selected papers are those that have been peer reviewed and approved for publication by referees and the editors of each volume. It is hoped that the series as a whole will be both of interest and of value to academics, scholars, researchers, and practitioners.

The work of the referees is very much appreciated for without their volunteer efforts and time expended on reviewing papers and the re-writes by authors the Architecture Anthology II series would not be possible. Thank you to the referees for Volume 6: Sayed Ahmed, Francois Blanciak, Mehdi Gorjian, Stefania Mornati, Vincenzo Sapienza, Wenying Tan; Volume 7: Melike Akyol, Chen Chunhong, Eren Erdener, Stefania Mornati, Ebru Ozeke Tokmeci, Teresa Rovira, Wong Wah Sang; and Volume 8: Ash Ahmed, Domenico Chizzoniti, Efstratios Gavotsis, Ahmed Muhaisen, Rudolf Perold, Ksenia Piatkowska, Carlos Alberto Tello.

The process of producing the volumes could not have been undertaken without the valuable assistance of Olga Gkounta, Research Assistant at ATINER.
