Events are organized by ATINER’s seven Research Divisions and 38 Research Units, and are open to all academics and researchers as stipulated in the [mission](#) and [policy](#) of the association.

ATINER was established in 1995 as an independent world member-based association of academics and researchers. Its mission is to act as a forum where academics and researchers from all over the world can meet to exchange ideas on their research and discuss future developments within their disciplines. Athens was chosen as the meeting place because of its long history and vibrant culture. Currently, the Association has 2245 members from 115 different countries (<http://www.atiner.gr/all-members>).
