The Institute was established in 1995 as an independent, global, member-based **association** of academics and researchers. Its mission is to act as a forum where academics and researchers from all over the world can meet to exchange ideas on their research and discuss future developments in their disciplines. Athens was chosen as the meeting place because of its long history and culture.

In 2017, ATINER will organize more than 100 annual international conferences and other events. About 3000 professors and other researchers from more than 100 countries participate in all these events combined. All conferences take place on an annual basis in Athens.
