During the two days of the conference, 25 scientific papers were presented by 32 academics and researchers from 11 different countries on five continents (**Australia, India, Italy, Poland, Romania, Russia, South Korea, Spain, Turkey, UK and USA**). The detailed conference program is available at: <https://www.atiner.gr/2018/2018PRO-HUM.pdf>.

Participants also attended an **Academic Dialogue on Global Challenges of Arts and Humanities Education** organized by ATINER as part of this conference. Scholars from three different countries (Romania, Spain and USA) formally presented as part of the academic dialogue, while discussion was opened to all participants. This is the first conference from ATINER's 2018 program of conferences, symposiums, forums, and other events. In 2018, ATINER will organize 70 conferences and symposiums (<https://www.atiner.gr/2018conferences>) and more than 100 special streams (<https://www.atiner.gr/2018panels>) on a plethora of topics as part of the 2018 Academic Events Program. Events are organized by ATINER's seven Research Divisions and 37 Research Units, and are open to all academics and researchers as stipulated in the [mission](#) and [policy](#) of the association.

ATINER was established in 1995 as an independent world member-based association of academics and researchers. Its mission is to act as a forum where academics and researchers from all over the world can meet to exchange ideas on their research and discuss future developments within their disciplines. Athens was chosen as the meeting place because of its long history and vibrant culture. Currently, the Association has 2377 members from 115 different countries (<http://www.atiner.gr/all-members>).
